

Franklin Township Comprehensive Plan

Franklin Township has requested that the Warren County Regional Planning Commission (RPC) develop their first Comprehensive Plan. The Plan will be used to guide growth, development, and redevelopment, and capital improvements that enhances Township resident's quality of life.

The effort is led by the RPC and will be a combined effort of the various Township Departments, Boards, Commissions, and most importantly, the residents and businesses. The RPC will provide facilitation and technical services and draft the Plan. The Plan will include detailed analysis and recommendations to address growth and development; housing; parks and recreation; cemeteries; public infrastructure and services; land use and zoning; and other important issues within the Township. The process will include multiple strategies to solicit public input including a project website.
